

Artists amaze audiences

Art students showcase pieces at local theater

by Lily Peterson

On May 10th-12th, artistic students got to show off their talents to their friends, family, and the community! The art department held its annual district art show at The Egyptian Theatre. The show not only allows students to show off their skills. The art was judged by an art professor and a high school teacher.

One of the coordinators of the event, art teacher Mrs. Bend, said, "My favorite part of the show is seeing students see their artwork for the first time matted and on display and proudly showing their parents/friends their artwork and explaining the process. I also love seeing students react to other students' artwork. There is so much at DHS, it's incredible to see what other students are doing in art."

Sophomore Taryn Harness-Kemp said, "This was my first time participating in the show and it was a really great experience! There's so much talent it's insane. All the people who were in the show, whether they placed or not, are incredible artists."
